All the RIGHT SPACES

Have you ever shopped at a high-end clothier and noticed the fixtures, shelving and clothing racks that are both attractively designed and constructed of real wood, yet highly functional and built to last? Such concepts - flexibility, sturdiness, beauty, efficiency - are the genesis of All the Right Spaces closet organizers.

All the Right Spaces, with manufacturing facilities in the central Illinois community of Farmer City, IL, is a family-operated company that combines state of the art wood milling technology with the hand craftsmanship of traditional custom carpentry. With the family's three decades of wood working experience behind it, our line of home storage and organization solutions reflects our Midwestern values, small-town work ethic, and commitment to quality. We stand behind our fully warranted products and will be here to stand behind them in the future. Most importantly, we are as demanding of quality, craftsmanship, and attention to detail as the homeowners who become our partners in excellence and make our products an important addition to their homes. All the Right Spaces is more than a company, it's a promise of quality kept.

More than you expected for less than you thought.

An All the Right Spaces closet organizer begins with the finest milled hardwoods and is brought to completion with a custom cabinetry-grade finish that will complement the rest of the woodwork and furniture in your home.

Our products feature solid, kiln-dried birch, maple, cherry, and oak hardwoods in a variety of rich lustrous finishes.

All the Right Spaces makes room for the way you live your life...

An organized closet makes mornings easier and coming home at night even more pleasurable.

Save time by having a perfectly organized wardrobe instead of rummaging through rumpled piles and overcrowded hangers. With All the Right Spaces, every article of clothing, every shoe, every garment has its own place. When slacks, suits, dresses and blouses are properly hung or stacked, your clothing will last longer and look better. Drawers help keep hosiery and undergarments where you want them so you can find them. Add a mirror, seating, a compartment for jewelry, tie hangers or a laundry hamper. Protect the investment you've made in the way you dress.

All the Right Spaces closet organizers can be setup and installed in as little as six hours, minimizing disruption of your daily routine and maximizing your home's functional space. Most components are pre-fitted, which lessens the need for intrusive power tools and equipment in your home during installation. There's no need to remove existing trim or moldings, and the impact on your walls is minimal.

Because All the Right Spaces closets organizers feature standardized shelving, units can easily be arranged, recombined - even added to as your needs change. And while having an All the Right Spaces closet organizer increases the value of your home when you sell, units are completely portable and can go wherever you go, if you wish.

ENDLESS POSSIBILITIES!

All the Right Spaces also has storage options to transform your kitchen pantry and laundry area. You can take control of other parts of your life with All the Right Spaces' custom-designed pantry and laundry room units. Made from the same high-grade hardwoods and sturdy metal fittings as our closet solutions, these organizers let you take charge of the other difficult-to-manage areas of your home, but with the same fine solid wood finishes and craftsmanship.

Pantry Components

All the Right Spaces pantry units feature ample shelving, roll-outs, buns and drawer space for cans, boxes, bulk items, and fruits and vegetables. Handy elevated storage areas let you see what you have at a glance, without the need to move things around. Pull-out spice and seasoning compartments allow you to store smaller items neatly and without the clutter. There's a wine rack for bottles. You can even keep your waste receptacle hidden from view.
